ARS PARK A.Ş.[®]

Bizler ARS GROUP olarak, ARS Park A.Ş., CRS METAL A.Ş. ile Türkiye'nin Dünya'ya açılan kapılarından biri olmak için yıllardır en iyi ve kaliteli hizmeti sunmak için çalışmaktayız. Bugünden yarını tasarlamak, yarına bugünden ulaşmak gelecek neslimizin iç dünyasında ki enerjisiyle mümkündür. ARS GROUP bünyesinde yer alan ARS Park A.Ş. 2006 yılında Konya Büsan Özel Organize sanayi bölgesinde kurularak faaliyetine başlamıştır. ARS Park A.Ş. 2006 yılından bu yana, kaliteli hizmeti ve dürüst ticareti kendisine ilke edinerek sektöründe kazanmış olduğu tecrübeyle "Endüstriyel" ve " Dekoratif Işıklı Ürünler" alanlarında faaliyet göstermektedir.

Otomotivden, savunma sanayine, tarım ekipmanlarından, kent mobilyalarına, hayvancılık ekipmanlarından, plastik polietilen su depolarına, polietilen çocuk oyun gruplarından, fitness ekipmanlarına, gıda stoklama depolarından, zırai ilaçlama depolarına, mazot depolarından, asit tankları, tekstil arabalarına, polietilen saksı modelleri ve dekorasyon ürünleri gibi birçok ürünleri bünyesinde barındırarak ilkleri başarmıştır. Müşterilerimiz tarafından istenilen ürünleri kullanım alanlarına göre farklı renk ve kalınlıklarda üreterek ürün çeşitliliğinin ne kadar önemli olduğunu bir kez daha göz önüne serdi.

Tüm bunları yaparken gelişen teknolojiyi takip etmeyi ihmal etmeyerek firmamız 2000 kg ham maddeden 50 bin litrelik tek parça su deposu üreterek kapasitesiyle Türkiye'nin en büyüğü Avrupa'nın ikinci büyük firması oldu.

Polietilen su depolarının iç kısmı siyah ve dış kısmı beyaz renkte üretilerek güneş ve gün ışığının suyla birleşmesi engellenmiştir. Koku, yosunlaşma, sararma gibi olumsuz durumları ortadan kaldıran teknolojimizi uygun fiyat, zamanında teslim, daimi kalite ve mutlak hizmet anlayışımızla birleştirdik ve vermiş olduğumuz bütün taahhütleri yerine getirdik. Teknoloji parkuru ve iş gücümüzle yıllık kapasitemiz 2500 tondur.

2016 Yılına gelindiğinde CRS METAL A.Ş ile belirlediğimiz büyük hedeflere daha da yaklaşmış bulunuyoruz. CRS METAL A.Ş firması olarak makinalarımız en son teknolojinin getirdiği özelliklere sahip olup müşterilerimize daha iyi hizmet verebilmek için hassasiyet ve kaliteyi ön planda tutmaktadır. CRS METAL A.Ş firmamızın 2000m2 kapalı, 1800m2 açık alanı kapsayan üretim tesisi bulunmaktadır.

ARS Park ailesi olarak 2006 yılı itibariyle başladığımız imalat sürecinde geniş ARGE çalışmaları neticesinde çağımızın gereği LED aydınlatmaları, Plastik ile birleştirerek mimari ve görsel anlamda gündelik hayatımızda Oteller, Düğün Salonları, Eğlence Merkezleri, Kafe'ler gibi günlük kullanım alanlarında görsel bir şov sunmaya başladık. 2010 yılı başlarında Polietilen hammaddeyi AR-GE çalışmalarımıza dâhil ederek bu malzemeden Avrupa standartlarında ve Uzakdoğu maliyetlerinin altında istenilen ebat ve görsellikte standart üretim dışında butik imalatı da üretim prosesimize katmış bulunmaktayız.

Büyüyen ve değişen dünyanın ihtiyaçlarını karşılamakta olan ARS Park A.Ş. daima başarıyı hedefleyen zengin kadrosu tecrübeli ve dinamik yöneticileri ve yeni teknolojiye ayak uyduran üretim ağıyla yükselmeye devam edecektir.

Vizyonumuz;

Müşteri, ve çalışanına artı değer sağlayan, kaliteli ürün ve hizmetleri ile geniş kitlelere erişen, toplumsal sorumluluğunun bilincinde, değerlerine sadık, güvenilirliği, kalite yönetimi, ürün çeşitliliğinde öncülüğü, uzman personeli ve müşteri odaklı hizmet anlayışıyla ilk akla gelen ve tercih edilen kurum.

Misyonumuz;

Müşterilerimize faaliyet alanımızla ilgili ürün ve hizmetleri kalite ve etik değerlerden ödün vermeden her seferinde beklentileri aşarak sunmak, sektöre yön veren bir kurum olarak araştırma ve geliştirme faaliyetlerini üretime dönüştüren bir marka olmak.

YÖNETİM KURULU BAŞKANI

Ahmet Arslan

We, as ARS GROUP; with ARS Park A.Ş. and CRS METAL A.Ş. for many years to become one of Turkey's gateway to the world and we are working to provide the best quality service. Designing tomorrow from today and reaching tomorrow from today is possible with the energy of our next generation in the inner world. ARS Park AŞ, a subsidiary of ARS GROUP; It was established in Konya Büsan Private Organized Industrial Zone in 2006 and started its activities. ARS Park AŞ. Since 2006, it has been operating in the fields of "Industrial" and "Decorative Lighting Products" with the experience it has gained in its sector by adopting quality service and honest trade as a principle.

From automotive, defense industry, agricultural equipment, urban furniture, animal husbandry equipment, plastic polyethylene water tanks, polyethylene children's playgroups, fitness equipment, food storage tanks, agricultural spraying tanks, diesel fuel tanks, acid tanks, textile cars, polyethylene flower pot models and decoration products It has achieved firsts by incorporating many products such as. Our company has shown once again how important product diversity is by producing the products desired by our customers in different colors and features according to their usage areas.

While doing all these; monitoring the developing technologies , 2000 kg of raw material to produce a single piece of 50 thousand liter water tank, with a capacity of our company has become Turkey's largest and Europe's second largest company.

Polyethylene water tanks are produced in black on the inside and white on the outside, preventing sun and daylight from joining with water. We combined our technology, which eliminates negative situations such as odor, moss, yellowing, with our understanding of affordable price, timely delivery, permanent quality and absolute service, and we have fulfilled all our commitments. Our annual capacity is 2500 tons with our technology infrastructure and workforce.

When it comes to 2016, we have come closer to the big targets we have set together with CRS METAL A.Ş. As CRS METAL A.Ş company, we prioritize precision and quality in order to provide better service to our customers, as well as having the features of our machines with the latest technology. CRS METAL A.Ş has a production facility covering 2000m2 closed and 1800m2 open area.

As the ARS Park family, we started to offer a visual show in social areas such as Hotels, Wedding Halls, Entertainment Centers, Cafes in our daily life by combining LED lighting with plastic as a result of extensive R&D studies in the manufacturing process we started in 2006. At the beginning of 2010, by including the polyethylene raw material in our R&D studies; We have included boutique manufacturing in our production process in addition to standard production in the desired size and visuality, at European standards and below Far East costs.

Meeting the needs of the growing and developing world, ARS Park AŞ; It will continue to rise with its staff, who always aim for success, experienced and dynamic managers and production facilities that always have the latest technology.

Our Vision;

Providing added value to its customers and employees, reaching large masses with its quality products and services, being aware of its social responsibility, loyal to its values, reliability, quality management, leadership in product diversity, expert staff and to be the first company that comes to mind and preferred with its customer-oriented service approach.

Our Mission;

Providing our customers with products and services related to our field of activity without sacrificing quality and ethical values, exceeding expectations every time and to become a brand that transforms R&D studies into production as an organization that directs the sector.
